The refund will be made within 14 days from the date of termination of the Agreement. In the event that the reimbursement of funds will be associated with the necessity to incur additional costs on the Operator's side in the form of transfer costs, these costs will be deducted from the funds due to the Customer to be refunded.
3. The Operator may terminate the Agreement subject to the 7-day notice period (seven days) in the event of occurrence of a significant cause, such as in particular: liquidation of the CRM System or ceasing of operations or change of the scope of CRM System operations.
 4. Termination of Agreement for the provision of services via electronic means by the Operator shall occur through sending a statement of termination of Agreement for the provision of services via electronic means to the electronic post address of the User specified in Client Account or via submission of a declaration to the User in any other manner.
 5. Subject to clause 6 above, the consequence of termination of Agreement shall be the liquidation of Client Account by the Operator.

6. In case when during the term of the hereby Agreement the User has availed of bike rental in other cities on the basis of the principle of compatibility of Systems, in accordance with Clause I (4) of the Terms of Service and in the framework of registration to that subsequent service he or she did not set up a new account, Client Account shall not be liquidated. The service of Client Account shall continue to be provided according to the conditions specified in the Terms of Service indicated above for the subsequent service which, as per the rule of compatibility, the User used, including in particular the means on the Account will remain available to be used under this service.
7. If the User, after termination of Agreement, continues to use Client Account according to the rules specified in Clause 6 above, he or she shall be obliged to make payments stemming from the Terms of Service of a given service, excluding payment of the initial fee according to the conditions specified in the Terms of Service of a given service.
8. In case when Client Account is liquidated, provided that the means of Client Account exceed PLN 15 on the day of Agreement termination, these shall be returned to the bank account specified by the User. The termination of the Agreement takes effect immediately, within 30 days from the date of receipt of the termination by the Operator. In case when reimbursement of funds is related to the necessity of incurring additional costs on the side of the Operator in the form of transfer costs, these costs shall be deducted from the means to the reimbursement of which the Client is entitled.

XIV. Final provisions

2. The Operator reserves the right to terminate the Agreement with a notice of 14 days in case the Client breaches the provisions of the hereby Terms of Service (i.e. lack of acceptance of the new Terms of Service, non-return of a bike at the required time) while the Client is entitled, in respect of the Operator, to submit claims related to the return of means on the Client Account, provided that they were not used by the Operator previously to cover the payable liabilities chargeable to the Client.
3. The Operator is authorized to introduce changes to the Terms of Service or Privacy Policy effective in the future. 4. For all matters unresolved in the hereby Terms of Service the binding legal provisions shall apply, and in particular, the provisions of the Civil Code and the Act on Road Traffic.
5. In case of any discrepancies between the Polish and the foreign language version of the Terms of Service, the Polish version of the document shall prevail.

Appendix no. 3 Principles of use of Standard Bike with child seat

1. Maximum burdening of Bikes equipped in children seats cannot exceed 114 kg per bike.
2. The use of Bikes equipped in children seats is possible solely under the supervision of a legal guardian of the child who possesses an account within the Częstochowski Rower Miejski System. The legal guardian is obliged to correctly secure the child in the seat, in accordance with the user instruction placed on the seat.
3. In case of any doubts as to the manner of proper carriage of a child in the bike seat, the User of the System ought to contact CC by phone.
4. Bikes equipped in children seats are designated to carrying children with body weight from 9 kg to 22 kg, who are capable of sitting autonomously for a period of time longer or even to the intended bike journey.
5. Prior to placing the child in the seat, one must ensure whether the seat, the mounting mechanism for the bike and the restraining elements, designated at ensuring safety of the child during ride are not damaged or bearing traces of damages, nor loosened up and that they are stably mounted to the Bike. It is also recommended to control the seat temperature (whether it is not excessive i.e. due to direct sun exposure). In case of observing any irregularities and, in particular, in case of noting defectiveness of the seat or defectiveness of its mounting to the Bike, the User of the Częstochowski Rower Miejski System ought to inform the Operator of the above by means of CC and the use of such a seat is forbidden.

6. Legal guardian assumes full responsibility for the child in the course of rental of the Bike equipped in a child seat.
7. Children in bike seats ought to be wearing helmets securing them (helmets do not constitute standard Bike accessories). One must remember that children ought to be equipped in adequate clothing that secures them against weather conditions, such as rain or sunlight.
8. Children must be placed in a seat in a manner that guarantees their optimal comfort and safety in the course of the ride, using the restraining system in order to ensure restraining of child's movement in the seat. It is recommended that the back support is slightly tilted backwards.
9. The User is obliged to ensure that the carried child is secured in a way that prevents them from falling out during the ride. If an accident occurs due to improper use of the restraining mechanism, the Client shall bear responsibility in such case.
10. Prior to commencing a ride one must ensure that:
 - a) There is no possibility of any part of child's body, clothing or restraining elements to come into contact with the moving seat element or the bike,
 - b) Additional burdening of the Bike does not negatively impact the steering capacity of the bike or its balance, necessary for safe movement on the Bike;
 - c) Body mass and size of the child do not exceed the maximum workload of the seat (the above must be controlled also during the ride).
11. Performance of any sort of seat modifications and mounting of additional luggage in the place where the seat is mounted with a child inside is forbidden. One must maintain caution during the ride by a Bike with a child placed in the seat, bearing in mind that the Bike may operate differently in terms of maintaining balance, steering and braking. In particular, one must adjust the speed of riding to the limitations stemming from travelling by means of an additionally burdened bike.
12. In the course of Bike use one must carry out an ongoing verification whether the bike's rack functions properly and furthermore, whether the carried child does not obscure in any way the bike's reflectors placed on the rack/seat.
13. One must furthermore pay special attention not to leave the Bike parked with the child remaining in the seat without supervision.
14. Rentals and Returns of Bikes with children seats are possible at each of the stations.
